Immerse
A ministry of TMS Global

Your church and your community can thrive together for transformation. Through in-person and virtual gatherings over 16 months, Immerse coaches guide your pastor and core team through a proven journey for local churches. As part of the project, you are “immersed” in other ministry settings to learn, evaluate, and explore how to revitalize your congregation’s mission in your specific community.

Community trust in churches is declining, and pastors often feel ill-prepared to navigate the social changes driving that loss of trust. Many leaders are under pressure just to keep their congregations afloat and feel that meaningful community engagement is just out of reach.

The Immerse Project’s response: Immerse fosters collaborative leadership by empowering elders, staff, congregants, and community partners to share insight and share the load. The journey provides clear vision with room to innovate, cultivating effective leadership at every level so your church can engage your neighbors for lasting transformation.

Outcomes & Investment

- Generate church-wide commitment to mission
- Develop engagement plans aligned to community needs
- Revitalize lay leadership in your ministries
- Build lasting relationships with neighbors and community organizations

Immerse Investment - \$15,000

- Church Investment - \$2,000
